**Subject:** Join us July 28 - Stop the Frack Attack bus

Memo to SPARC members and friends:

*Governor Cuomo is expected to make an announcement soon about FRACKING in N.Y. If he gives even a limited 'go ahead' to the industry, our precious open spaces, such as Stewart State Forest are at risk. Our health, our water, our safety on the highways---we could go on and on---also face serious risk.  
It's time to take direct action.*

**Now, the Governor needs to see that folks across the state and the nation oppose fracking. The presidential candidates need to see this also. On Saturday, July 28th, thousands will gather in Washington D.C. for the:  
Stop the Frack Attack rally and march
